

MOLINE-COAL VALLEY
SCHOOL DISTRICT

Administrators and security personnel now have the ability to view their assigned camera footage from their mobile client using the xProtect mobile app from any location with a viable network connection (wireless or mobile data).

The use of the xProtect mobile app on personal devices is optional. The District is not liable for any data charges or device changes due to using the xProtect mobile app for work purposes.

Install the Mobile App:

GET IT ON
Google Play

Download on the
App Store

Adding the VMS Server:

1. From the welcome screen after first launching the app, tap the “Add Server” button.
2. Tap “Add Server “Manually” at the bottom of your device.
3. Server Details:
 - a. Server Name: MCV-MVMS
 - b. Manual Address: mcv-mvms.molineschools.org
 - c. **Be sure to remove any spaces***
 - d. Tab “Add Address”

← Server connections

Manual addresses

mcv-mvms.molineschools.org

⋮

Automatic addresses

MCV-MVMS.msdad.molineschools.org

206.226.71.69

ADD ADDRESS

4. Tap “Continue Login”
5. Tap “Windows User” (may be the default)
6. Enter your computer user name without “@molineschools.org”.
7. Enter computer password
8. Tap “Remember Me” if desired

LOG IN

Enable Security

1. Enable Biometrics (preferred)
 - a. In the upper left corner, tap the person icon next to “Views”

- b. Tap App Settings
- c. Tap “Enable use of biometrics or our device credentials for this app”.
- d. Follow the on-screen instructions for your device

← Settings

GENERAL

Stay awake

Enable to keep the screen awake while streaming video.

Hide demo server

Enable to hide the demo server from the server list.

Provide usage data

Enable on this device to help us deliver excellent services to you. Read more in our [Privacy Policy](#), including Milestone's use of Google Analytics and potential transfer of personal data to the US.

Push notifications

To receive notifications, you must enable the notifications setting on your mobile device.

[Go to the mobile device settings](#)

Enable use of biometrics or your device credentials for this app

Use biometric sensors or your device credentials to unlock the app.

VIDEO QUALITY

Frames per second

Lower FPS will reduce the bandwidth usage.

[Optimize bandwidth or image quality](#)

For more details on how to use the mobile app, please refer to the [Milestone help document](#) or contact the Educational Technology Department via email: edtech@molineschools.org.
